WELCOME TO YOUR JOURNEY

What is Astrocartography?

Astrocartography, also known as locational astrology, is a powerful technique that maps your birth chart onto the Earth, revealing how different locations around the world resonate with your unique cosmic blueprint.

Developed by astrologer Jim Lewis in the 1970s, this system shows where planetary energies are most strongly expressed for you personally. By understanding these influences, you can make informed decisions about where to live, work, travel, or pursue specific life goals.

Planetary Lines

Lines crossing the map show where each planet was rising, setting, or at its peak during your birth moment. These create corridors of energy unique to you.

Power Zones

Where beneficial planetary lines cross, powerful zones of opportunity emerge. These intersections amplify positive energies for specific life goals.

Vedic Integration

We enhance Western astrocartography with Vedic astrology—your Rashi, Nakshatra, and Lagna—plus Vastu directional principles for deeper insight.

Timing Matters

Your Vimshottari Dasha periods reveal when certain locations become more favorable. The right place at the right time multiplies success.

“The stars impel, they do not compel. Astrocartography helps you align with cosmic currents rather than swim against them.

Detailed Analysis

Mumbai presents challenges primarily due to the **Saturn-IC** line passing through this region. Saturn on the IC (Imum Coeli) often creates a sense of heaviness, restriction, and slow progress in building foundations—whether career, home, or emotional security.

Additionally, the presence of **Mars-DC** can indicate potential for conflicts in partnerships and relationships, which may extend to professional collaborations. The city's South direction from your birthplace also conflicts with the favorable directions indicated by your Scorpio Lagna and Vishakha Nakshatra.
